**TODAYS CELEBRATES 25 YEARS OF BUSINESS SUCCESS
ACROSS THE US AND CANADA**
*Dallas-based Company estimates they have placed more than one-half
million candidates with client companies since 1982*

DALLAS, TX – July 30, 2007 – The summer of 2007 marks an important milestone for Today's Staffing, as the Dallas-based Company celebrates 25 years of business success. Today's operates in more than 35 markets across the United States and Canada through more than 65 Company-owned and franchised branches.

Today's, formerly known as both Today's Office Staffing and Today's Temporary, is recognized as providing the highest quality candidates and customer service in the industry while maintaining the personal service and attention that has always been a hallmark of the Company. According to an independent third-party survey, 95 percent of clients are satisfied with the level of service they receive from Today's – well above the industry average of 88 percent. Additionally, 96 percent of customers are satisfied with the quality of Today's candidates, which according to several studies, is the key driver of overall satisfaction with a staffing provider.

“The quality we provide – in the candidates we source and in the customer service we deliver – is a major contributing factor to our success over the years,” says Today's President, Dan Neuburger. “As the industry and market dynamics evolve, opportunities for flexible, high quality staffing solutions will grow, and we expect to benefit from this trend,” he says.

Today's started in Dallas in 1982, and expanded quickly becoming a national provider in 1987. Since then, company representatives estimate that nearly 100,000 client companies have trusted Today's to fulfill their staffing needs in clerical, administrative, legal, and financial professions, as well as light industrial positions in Canada. Additionally, it is estimated Today's has put nearly three quarters of a million people to work in such positions since the company's inception.

“Our 25th Anniversary is a very important milestone,” says Neuburger. “And, our success over the last 25 years is a direct reflection of our people and our process. We're proud to be a leader in such an important industry and we're excited about our future prospects.”
